

ADVANCED BIOLOGY-HUMAN BODY

Amy Craddock

Class Description:

This is Apologia's advanced biology course The Human Body: Fearfully and Wonderfully Made. It covers both the anatomy and the physiology of the human body's 11 organ systems in detail. The reproductive system is covered in detail, including frank (not pornographic) illustrations and descriptions. Combined with Exploring Creation With Biology, it gives the student the equivalent of an entire biology advanced placement (AP) curriculum. In order to take this course, the student must have completed a first-year biology course and a first-year chemistry course. The course includes microscope labs and mammal organ dissection labs.

Approximate hours of homework per week:

1-3 hours per week

Prerequisites for this class:

Completion of Biology and Chemistry

Class is appropriate for grades: 11th – 12th Grade

Materials to be supplied by the student:

The Human Body: Fearfully and Wonderfully Made (textbook only \$58.50 or with test and answer key \$76.50), notebook, microscope to share with lab partner, dissection kit to share with partner

One-time fee for this class: \$36.50 each approximately

The one-time fee is for: Human Body dissection kit and microscope kit fees split with lab partner

ALGEBRA ½

Tamara Dais

Class Description:

We will cover area, percent, ratio, order of operations unit multipliers, metric system, conversion of metric to english, and beginning algebra (algebraic phrases, algebraic sentences, equation of a line, graphing of a line, etc.)

Approximate hours of homework per week:

5-6 hours per week

Prerequisites for this class:

Completion of Saxon 76 (students who have completed Saxon 87 can go directly to Algebra I)

Class is appropriate for grades: 8th – 12th Grade

Materials to be supplied by the student:

Saxon, Algebra 1/2 textbook (3rd edition), DIVE CD, pencils, paper and calculator

One-time fee for this class: None

The one-time fee is for: N/A

ALGEBRA I

Tamara Dais

Class Description:

We will be using Saxon's Algebra I text book to cover signed numbers, exponents, solving equations, two equations with unknowns, graphing equations, scientific notation, ratio, percent, variation, unit conversions, geometry, perimeter, area, volume, surface area and English to metric conversion.

Approximate hours of homework per week:

4-5 hours per week

Prerequisites for this class:

Completion of Saxon 87, Saxon Algebra ½ or equivalent.

Class is appropriate for grades: 8th – 12th

Materials to be supplied by the student:

Saxon, Algebra I text book, pencils, paper and calculator

One-time fee for this class: None

The one-time fee is for: N/A

ALGEBRA II

Tamara Dais

Class Description:

We will be using Saxon's Algebra II text book to cover signed numbers, exponents, solving equations, two equations with unknowns, graphing equations, scientific notation, ratio, percent, variation, unit conversions, geometry, perimeter, area, volume, surface area and English to metric conversion.

Approximate hours of homework per week:

5-6 hours per week

Prerequisites for this class:

Completion of Saxon Algebra I or equivalent.

Class is appropriate for grades: 9th – 12th

Materials to be supplied by the student:

Saxon, Algebra II text book, pencils, paper and calculator

One-time fee for this class: None

The one-time fee is for: N/A

AMAZING SCIENCE

Barb Scott/Renay Stoltz

Class Description:

Science doesn't have to be boring, it can be a blast for young people!!! This year, we will be focusing on our bodies and our place in our universe. To do this, we will use chemistry, biology, research, experiments and anything else we need to accomplish our goals. This class will be based on curriculum by Abeka and Alpha Omega.

Approximate hours of homework per week:

None

Prerequisites for this class:

Desire to learn and have fun!

Class is appropriate for grades: 1st – 5th

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for:

AMERICAN GIRLS

Wendy Groenevelt

Class Description:

Some things about growing up have changed, while others - like family, friendship and faith - have stayed the same, and these are the things that American girls will always share. Explore American History through the eyes and experiences of the girls from the American Girl book series. History comes alive through discussion, activities and handicrafts from each time period. Please note: students will be assigned one American Girls chapter book to be read outside of class each month in order to be prepared for class discussions.

Approximate hours of homework per week:

1 Hour

Prerequisites for this class:

Third Grade or higher reading level

Class is appropriate for grades: 3rd – 6th Grade

Materials to be supplied by the student:

American Girl Chapter books, one per month (list of assigned books will be provided at beginning of year). Borrowing the books from the library or friends is fine.

One-time fee for this class: None

The one-time fee is for: N/A

AMERITOWNE WITH GOD'S GUIDANCE

Barb Scott/Renay Stoltz

Class Description:

This is a hands-on class in free enterprise that provides students the opportunity to run their own life-like town. Students apply and interview for jobs, elect a mayor and judge, create laws, manage bank accounts and experience free enterprise first-hand. We will have a contest as to who can earn the most money using the stock market. We'll have lots of games and fun! Through this all, we'll stay God-focused. Curriculum: Money Matters for Kids and Ameritowne Workbook

Approximate hours of homework per week:

30 minutes or less

Prerequisites for this class:

Desire to have fun!

Class is appropriate for grades: 4th to 10th Grade

Materials to be supplied by the student:

None

One-time fee for this class: \$20

The one-time fee is for: Book and Ameritowne Fee

ANIMAL KINGDOM THROUGH ART

David Sullivan

Class Description:

In this series of classes I will focus on the wonderful creatures that God has put on our planet. We will discuss the biology and the biomes where these amazing animals live as we render them artistically. I will teach the students a variety of different art techniques. We will draw, paint and learn how to sculpt. We will develop an understanding of skeletal and muscle structure to render animals accurately. We will examine fur, feathers, scales and coloration to understand their function and the reasons why these animals look as they do. As we learn about these unique and wonderful animals I hope to instill a sense of appreciation and responsibility of the creatures that we are stewards of. Over the course of this year I will present a variety of different animal subjects generally grouped into the areas where they live or how they are related.

Approximate hours of homework per week: None

Prerequisites for this class: None

Class is appropriate for grades: 2nd Grade and Up

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

ART HISTORY

Julie Austin

Class Description:

This class will study art from the Roman times to the Christian period and beyond. Homework is necessary in that it helps the student reinforce the material that is learned during class. The history of art is such an insight to what a particular culture acquired during their time. This is meant to be a fun discovery of Art History. Come and explore.

Approximate hours of homework per week:

2 Hours

Prerequisites for this class:

None

Class is appropriate for grades: 8th Grade and Up

Materials to be supplied by the student:

Notebooks, pen, pencil, note cards

One-time fee for this class:

The one-time fee is for:

BATTLE STRATEGIES & WEAPONS

Alex Groenevelt

Class Description:

The class will take a look at changes in how war and weapons changed through the ages from early times to the present. We'll look at the basic components of strategies and how technology has affected those components. We'll be using a combination of film clips, historical accounts, photos, paintings, and models as supporting material. Student exercises will include planning different strategies for different situations and being able to support those strategies. Exercises may also include battlefield and/or weapon models. The basic skills that students will take out of the class are logical thinking, problem solving and forward strategic thinking.

Approximate hours of homework per week:

1 hour

Prerequisites for this class:

None

Class is appropriate for grades: 6th – 9th Grade

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for:

BIBLE GEOGRAPHY

Carmen Barber and Anna Rounds

Class Description:

Come study the geography of the Holy Lands with us. We will touch on all aspects of geography, travel with Biblical characters, examine Biblical events while observing the geography surrounding those people and events, gain a greater understanding of how geography impacted the people and events of the Bible, and how geography can impact your life today. There will be weekly questions that walk you through familiar and not so familiar Bible stories, followed by mapping exercises to make the Bible come to life. This class will be presented in a "facilitated Bible study" format. Each person will do their own weekly assignment at home, then we will come together as a group and discuss answers and compare maps. This class is suitable for middle school through adults independently, younger students with parental support. Parents may wish to attend the class themselves and work through the adult level, and purchase and teach the younger student version to their children at home. This course would lend itself nicely to a high school student wanting to earn a full credit by exploring additional topics included in the student notebook and writing papers and/or making presentations to the class.

Approximate hours of homework per week: 1-2 hours

Prerequisites for this class: None

Class is appropriate for grades: Middle school through adult independently, upper elementary with parental support. At the time of registration, you will choose from 3 levels of student notebooks. Adults may choose to come to the class and learn the material, then purchase lower level student books to teach their own children at home during the week.

Materials to be supplied by the student: Colored pencils, pencil, Bible. Unless we purchase for the student (see one-time fee information below) they will need to supply their own comprehensive Bible atlas and "very fine tip" pens.

One-time fee for this class: approx \$10-15 for student notebook, other supplies additional (see below)

The one-time fee is for: We will print and assemble the Student notebooks. We will happily order any other supplies the student would like us to purchase. We have access to the Bible atlases, oversized maps, pens, etc. and will purchase whatever is ordered at open house night.

BIOLOGY

Cinnamon Schwinn

Class Description:

This is a first year high school biology class taught with the Apologia curriculum. We will discuss the five kingdoms, classification, learn how to use a microscope, dissect and various other biological topics.

Approximate hours of homework per week:

4-5 Hours

Prerequisites for this class:

None.

Class is appropriate for grades: 9th to 12th

Materials to be supplied by the student:

Exploring Creation with Biology, 2nd Edition Textbook, 3-ring binder

One-time fee for this class: \$35

The one-time fee is for: Dissection specimens, microscope slides, other lab supplies such as flowers, mushrooms, potting soil, seeds, copies of tests, etc... This does not cover the cost of the text or lab notebook.

BOYS CLUB
Ria Schaeffer

Class Description:

This class is for boys interested in exploring, learning, building, and doing activities with other boys their age. We do a variety of projects including unit studies around historic periods and classical literature. We explore and build airplanes and rockets. We make models and paint miniatures to complete the picture. We kick, throw, toss, hit, slam, slap and roll balls of all kinds-baseballs, footballs, hackey sacks, soccer balls, hockey pucks, etc.... We are very active, very hands-on, very FUN. If your son would like to join a group of enthusiastic, energetic boys then this is the place for him!

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: 1st – 7th Grade

Materials to be supplied by the student:

Notes will be sent home as materials are required

One-time fee for this class: None

The one-time fee is for: N/A

CARTOONING FUN

David Sullivan

Class Description:

Learn about the exciting world of Cartooning. Explore the basics of creating your own cartoons, including: character development, story line, lettering and marketing your work. 9 to 18 year olds learn about the technical aspects of cartooning with hands on use of zip-a-tones, light table, inking and other elements of cartooning. This class will give the young cartoonist insight and skills they will need to understand the beginning steps of becoming a professional cartoonist.

Must do 1st 8 weeks to advance to the last 4 weeks. The last 4 weeks of this course will be advanced techniques for the serious student interested in comic art & anime.

Approximate hours of homework per week:

Prerequisites for this class:

Class is appropriate for grades: 3rd – 12th

Materials to be supplied by the student:

One-time fee for this class: None

The one-time fee is for: .

CHEMISTRY

Cinnamon Schwinn

Class Description:

This is a high school Chemistry class, designed for students who have a working knowledge of Algebra. This is important as there is a lot of math the student will be required to know. We will learn about the periodic table, Law of Mass Conservation, how to balance equations, how to write and understand chemical equations and reactions, learn the structure of an atom, how to calculate molecular mass and much more. This class is taught using the Apologia curriculum.

Approximate hours of homework per week:

4-5 hours

Prerequisites for this class:

Needs to have completed Algebra 1. There is a lot of math in this course.

Class is appropriate for grades: 10th – 12th

Materials to be supplied by the student:

Textbook (Exploring Creation with Chemistry 2nd edition), 3-ring binder

One-time fee for this class: \$45

The one-time fee is for: All supplies needed for labs as well as lab equipment. It does not cover the cost of the text or lab notebook

CIRCLE TIME

Maggie Carabelos

Class Description:

"Circle Time" is a class designed to teach our younger students to love and appreciate books! This class is based upon the "Five In a Row" curriculum and will work as a themed monthly unit. The students will enjoy exploring and discovering books as we create a web of activities through music and movement, rhymes, songs, cooking, and art. Lessons and activities are based on high quality literature that will stimulate cognitive, sensory, fine motor and gross motor skills. This class is creative, educational and just plain fun. Please note that the themes used last year will not be the same this year, new books and projects will be introduced to the students.

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: PreK – 2nd Grade

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

COLLEGE PREP ENGLISH

Karen Cordova

Class Description:

So you want to graduate; you need to take the SAT; your mom says you have to write at least one clear research paper before the year is over? This class will include vocabulary study (semantics, Latin roots, prefixes, etc), weekly quizzes on grammar, reading (which is critical to writing) and prep for ACT/SAT tests, and preparation for writing college level papers with emphasis on research, detail and technique. This is a full credit class.

Approximate hours of homework per week:

One to three hours

Prerequisites for this class:

This class is open to all high school students, but will be geared toward students who are college bound.

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Writing instruments, paper and three ring notebook

One-time fee for this class: TBA

The one-time fee is for:

COLORADO HISTORY

Karen Cordova

Class Description:

In class, we will be doing hands-on activities such as making a salt-dough map of Colorado, Indian coil pots and dioramas, making soap like the pioneers, churning butter, skits about life at the turn of the century in Colorado, one-room school, study of soil, minerals and rocks, and tree identification. It would be great if we could arrange for the families of the students to go on a few field trips (either as a group or on your own) to visit the Denver Museum, Littleton Museum, State Capitol or local courthouse or an historical teaching farm such as the Abbey Farm in Greeley, interview older Colorado natives. Each week, the student will have some homework to complete before the next class. A notebook will be kept by each student to record info on a timeline, samples of trees, etc. drawings, photos, journaling. The five sections of the student notebook will cover: state symbols, geography, industry, impact of the Bible on Colorado, and military. We could also include wildlife, aviation and sports.

Approximate hours of homework per week:

1 hour

Prerequisites for this class:

None

Class is appropriate for grades: 3rd – 6th Grade

Materials to be supplied by the student:

To be announced

One-time fee for this class: To be determined

The one-time fee is for: Possible book

CONSTITUTIONAL LAW

Maggie Carabelos

Class Description:

This class will be based on the textbook written by Michael Farris of HSLDA, and features the full texts and helpful interpretations of our nation's historical documents, as well as the actual texts of 20 landmark constitutional decisions of the United States Supreme Court. The course is designed for students from high school through adulthood who desire to learn more about the Constitution and the Supreme Court.

Approximate hours of homework per week:

4-5 hours per week

Prerequisites for this class:

None

Class is appropriate for grades: 9th- 12th Grade

Materials to be supplied by the student:

Paper and Pen

One-time fee for this class: \$42

The one-time fee is for: If books are ordered through the Constitutional Law Class the cost is \$42, and shipping is included. Books may be ordered separately for \$50 plus shipping. (If you order after August 22nd, you are responsible for obtaining the materials on your own.)

CRAFTING CLASS

Julie Austin

Class Description:

This class is designed for any student who loves to create and craft. Some crafts that will be taught are weaving, candle design, box making, card-making, macrame, oragami, and so much more.. This class is open to any student who has fun exploring new and different ideas.

Approximate hours of homework per week:

None

Prerequisites for this class:

Desire to have fun

Class is appropriate for grades: 1st Grade and Up

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

DEBATE

Maggie Carabelos

Class Description:

Debate is a discipline that will serve students throughout their academic years and beyond. This class is for beginning and advanced speakers and is required if competing on the SALT Speech & Debate Team.

Beginning Debate: Designed to teach students the fine art of public speaking. Each student will learn the following skills: communication, discernment, research, time management, organization, teamwork, discipline, writing, and critical thinking. Beginning debate students are not required to compete.

Advanced Debate: For Team Policy Debate students intending to compete in local, state and national tournaments. Students will prepare for formal competition by focusing on debate theory, communication skills, discernment, research, time management, organization, teamwork, discipline, writing, and critical thinking. This class will have heavy weekly homework assignments and the students will be required to research and write independently. Students must be twelve years and older, have at least one year of Debate class, and must be serious about the commitment to compete. Fundraising may be necessary for competition and you must be a member of the NCFCA. Students enrolled in this class have the opportunity to letter in debate and are a part of the SALT (Speaking as Living Testimonies) Speech & Debate Club.

Approximate hours of homework per week:

5+ hours of homework of week

Prerequisites for this class:

Students are required to research and write independently. If competing, an NCFCA Affiliate registration is required.

Class is appropriate for grades: 6th (at least 12 years old) – 12th Grade

Materials to be supplied by the student:

"Blue Book" (ordered through Training Minds Ministry at www.trainingminds.org)
Additional supplies list will be available at Open House.

One-time fee for this class: \$30 to \$60 per family for NCFCA competing teams

The one-time fee is for: NCFCA Affiliate registration via www.NCFCA.org
Affiliation is per family and based on the current competitive season.

DROP IN-STAND OUT!

Karen Cordova

Class Description:

I will be available at Friday classes, by e-mail, or by regular mail for students/parents to submit writing assignments for critique. Writing critique will be available for all grade levels and all genre of writing. Each family will be allowed 3 writing assignments and/or a total of 10 pages for critique each month. Writing assignments may come from the parent or writing assignments may be requested from me.

Approximate hours of homework per week:

Varies by student/family

Prerequisites for this class:

None

Class is appropriate for grades:

K-12

Materials to be supplied by the student:

Writing assignments may be handwritten or typed

One-time fee for this class: N/A

The one-time fee is for: N/A

FACE CHOIR
Cinnamon Schwinn/Renay Stoltz

Class Description:

This choir is a performance choir. We will sing a variety of songs that will be age appropriate and pleasing to the Lord. The students will also be taught proper breathing techniques and some music theory.

Approximate hours of homework per week:

None

Prerequisites for this class:

Ability to sing and smile!

Class is appropriate for grades: 4th – 8th Grade

Materials to be supplied by the student:

One-time fee for this class: None

The one-time fee is for:

FIZZ! BANG! BOOM! SCIENCE

Monique Green

Class Description:

This class will be a total hands-on science class for the younger set! It will be an exploration of different materials, "chemical" interactions, senses and more! Let's get our hands dirty and have some fun!!

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: K- 2nd Grade

Materials to be supplied by the student:

None

One-time fee for this class: N/A

The one-time fee is for: N/A

GENERAL SEWING

Kordee Rose

Class Description:

Students will learn basic sewing skills for everyday life. They will learn how to safely operate a sewing machine and serger. Projects will include clothing, home decorating, bags, sporting equipment, etc... The course will be a "hands-on" class with students making projects based on their skill level.

Approximate hours of homework per week:

Depends on student and project

Prerequisites for this class:

None

Class is appropriate for grades: 3rd through 12th Grade – Boys Welcome!

Materials to be supplied by the student:

Fabric, patterns, thread, hand needles, pins, pin cushion, seam ripper, seam gauge, scissors, chalk or pencil, tape measure, thimbles, and a container for supplies.

One-time fee for this class: None

The one-time fee is for: N/A

GOD CHASIN' CHICKS

Paula Moldenhauer

Class Description:

God Chasin' Chicks, taught by Paula Moldenhauer, is designed for girls in 9th grade or above. The goal of the class is to encourage an intimate relationship with Christ while building friendships between the girls themselves. A variety of methods from discussions and journaling to group projects and role-playing are used. Outside activities like sleepovers, movie night, and nursing home outreach support the focus of the class, as do periodic service projects. Mothers are ALWAYS welcome to attend the class and are strongly encouraged to attend the events outside of class. God-chasin' Chicks also supports a needy child through World Vision. Participation in this outreach is not required, but is encouraged. The girls who participate contribute \$2-\$3 a month, take turns corresponding with our child, and help with a bake sale to raise funds.

Approximate hours of homework per week:

Depends on the study – occasional reading or journaling

Prerequisites for this class:

None

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Bible, pen and notebook

One-time fee for this class: None

The one-time fee is for: N/A

HIGH SCHOOL SEWING

Kordee Rose

Class Description:

Students will learn basic sewing skills for everyday life. They will learn how to safely operate a sewing machine and serger. Projects will include clothing, home decorating, bags, sporting equipment, etc... The course will be a "hands-on" class with students making projects based on their skill level.

Approximate hours of homework per week:

Depends on student and project

Prerequisites for this class:

None

Class is appropriate for grades: 9th Grade and Up – Boys Welcome!

Materials to be supplied by the student:

Fabric, patterns, thread, hand needles, pins, seam ripper, seam gage, scissors, chalk or pencil, tape measure, thimbles, and a container for supplies. A portable sewing machine is helpful, but not necessary.

One-time fee for this class: None

The one-time fee is for: N/A

JUNIOR SPEECH

Amy Craddock

Class Description:

Communicators for Christ believes that every Christian must harness and use the skills of public speaking. They (and we) also believe you can! We don't think the skills of communication, thinking clearly and speaking articulately are negotiable. It's not like asking whether you want to play a musical instrument or be on the swim team. We believe it is absolutely necessary for every Christian young person to become an excellent communicator, because once you identify with Christ, you are communicating for Christ. Are you communicating effectively?

This Communicators for Christ curriculum for 7-12 year olds entails watching examples on video and by older SALT Speech and Debate competitors and practicing good speaking skills via exercises and games. The students also use their workbooks and have help from older competitors as well as parents to write a few speeches to present in class (approximately one per month). These speeches receive constructive feedback from the older SALT competitors as well as classmates. At the end of the year, we will have a final presentation for family, friends and classmates of their best speeches.

Approximate hours of homework per week:

1-2 Hours

Prerequisites for this class:

None

Class is appropriate for grades: 2nd to 6th Grade

Materials to be supplied by the student:

None

One-time fee for this class: \$12

The one-time fee is for: Student Workbook

KARATE

Class Description:

Karate taught from a Christian perspective. The children are taught character qualities of self-discipline, control and patience. We will work on the skills needed to move through the colored belt levels. It's a great form of exercise and the children learn coordination and balance.

Approximate hours of homework per week:

1-2 hours per week

Prerequisites for this class:

None

Class is appropriate for grades: All

Materials to be supplied by the student:

Comfortable clothing for class time

One-time fee for this class: \$25 (optional)

The one-time fee is for: Optional uniform

KID THEMES

Wendy Groenevelt

Class Description:

Come join in the fun! This class, designed for 4 to 7 year olds, is all about learning while playing. Each month we'll explore a particular "theme" through crafts, stories, activities, games, snacks and memory verses. The students will enjoy exploring and expanding on a new theme each month while developing understanding, imagination, creativity and teamwork. Previous years' themes include Bugs, Noah's ark, Seeds, Thanksgiving, Wind, Fruit of the Spirit and Under the Sea.

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: PreK – 2nd

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

KREATIVE KIDS

Monique Green

Class Description:

In Kreative Kids we do all sorts of hands on activities. We make fun arts and crafts projects using paint, glue, glitter, material, wood, plastic, foam, etc. Sometimes we do other fun things like make shrink-a-dink jewelry or butter that we eat with crackers. Some examples of crafts we have made in the past are pilgrim hats, indian vests, "stained glass" crosses, snow flake ornaments, toilet paper roll bubble bees, pirate telescopes, puppets, playdoh, etc.

I like to take themes from holidays or seasons to inspire the projects. The idea behind all our projects is to have fun and be creative. The ages of the children in class vary widely and each child comes in with a different level of motor skills and creativity. The projects are done in steps, which are challenging for some children and not for others. I usually have plenty of helpers to help the children who need it. (The class recommended age is 3 years to 7 years. I have older children who love to do projects. So the age is only a suggestion.)

If the project for the day is done before class is over we usually sing songs, read a book, or exercise. (They can get so wiggly!)

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: PreK-2nd Grade

Materials to be supplied by the student:

Only when announced ahead of time, otherwise materials are supplied.

One-time fee for this class: None

The one-time fee is for: N/A

LET THEM MAKE MUSIC

Karen Cordova

Class Description:

We will learn basic music theory, practice ear training, study different music eras, and selected composers.

Approximate hours of homework per week:

Three

Prerequisites for this class:

None - all levels of musical ability welcome.

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Pencils

One-time fee for this class: Approximately \$20

The one-time fee is for: Music Theory Workbook

LET'S PLAY CHESS

Anna and Michael Rounds

Class Description:

"Chess teaches foresight, by having to plan ahead: vigilance, by having to keep watch over the whole chess board: caution, by having to restrain ourselves from making hasty moves; and finally, we learn from chess the greatest maxim in life - that even when everything seems to be going badly for use we should not lose heart, but always hoping for a change for the better, steadfastly continue searching for the solutions to our problems." - Benjamin Franklin

Chess makes you smart and kids have fun! Students will have the opportunity to learn or to improve their game. The goal is to have fun and to learn. Students can choose to play competitively or not. We will have a light devotional and instructional time and of course, play!

Approximate hours of homework per week:

Optional – play more for practice

Prerequisites for this class:

"Open," with this criteria * take and follow instruction well, have a desire to play, and be able to demonstrate good sportsman-like qualities.

Class is appropriate for grades: Open, but please note prerequisites

Materials to be supplied by the student:

Chess Game set, pencil and notebook

One-time fee for this class: None

The one-time fee is for: N/A

LIFE OF FAITH

Yvonne Piper

Class Description:

This is a Christian book series much like the American Girls, but geared toward middle-school aged girls. There will be discussions about the characters in the books and their walk of faith, video clips, crafts, journaling and teas throughout the year.

Approximate hours of homework per week:

0-30 minutes

Prerequisites for this class:

None

Class is appropriate for grades: 6th-8th Grade

Materials to be supplied by the student:

To Be Announced

One-time fee for this class: None

The one-time fee is for:

LITTLE PEOPLE-BIG MUSIC

Karen Cordova

Class Description:

We will learn elementary rhythm, simple steps & skips, and solfege. We will practice active songs, learn elementary keyboarding, and be exposed to different musical styles like folk music, classical music, and songs all young kids should know. Students will be exposed to different musical instruments as well. The class will participate in the FACE Christmas program as well as the Talent Show in the Spring.

Approximate hours of homework per week:

None

Prerequisites for this class:

None – all levels of musical ability welcome

Class is appropriate for grades: 1st – 4th Grade

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for:

LORD OF THE RINGS

Ria Schaeffer

Class Description:

We will be recreating the Lord of the Ring books from food and cultures to language and unity of friends. No stones will be left uncovered as we help Frodo see his journey to the end. The trilogy of the Lord of the Rings makes for great literature study. The cards really bring the characters to life, and a year of thorough investigation will give one and all a deep appreciation of this awesome work. We are very active, very hands-on, very FUN.

Approximate hours of homework per week:

Reading the book – 1 to 2 hours

Prerequisites for this class:

None

Class is appropriate for grades: 6th – 10th Grade

Materials to be supplied by the student:

Lord of the Rings Trading Cards and the Two Towers, book 2

One-time fee for this class: None

The one-time fee is for: N/A

MESSIANIC/ISRAELI DANCE

Tamara Dais

Class Description:

There are many ways to worship the Lord, dance is one of them. Miriam danced with the children of Israel as they crossed the Red Sea and King David danced before the Ark as it was returned to the Tabernacle. We will learn traditional and nontraditional Israeli dances. It'll be great fun as we learn to worship the Lord and minister to the people of God!

Approximate hours of homework per week:

1-2 Hours

Prerequisites for this class:

None

Class is appropriate for grades: 3rd Grade and Up

Materials to be supplied by the student:

Shoes with good support

One-time fee for this class: \$5

The one-time fee is for: Copies and CD

PAINTING IN WATERCOLOR

Julie Austin

Class Description:

Whether you are new to drawing or have taken classes in the past, learn how to really see what you want to draw. What does this mean? If you have ever felt frustrated about your drawings, this class can help you to draw what you "see". It's a fun class for those who want to try a different angle to drawing. Charcoal, pencil, pastel, and other mediums will be used. Some homework is needed to help train the eye of the student. Come and try it for a month or so!

Approximate hours of homework per week:

1-2 hours – approximately.

Prerequisites for this class:

None

Class is appropriate for grades: 2nd Grade and Up

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

P.E. – MOVEMENT MANIA!

Barb Scott

Class Description:

Children practice increasingly difficult sensory motor and gross motor activities on different pieces of equipment to improve perceptual motor coordination. We also introduce creative movement, partner activities, playground games like hopscotch and four square, music related activities and a favorite – the parachute! Curriculum: Perceptual Motor Lesson Plans by Jack Capon, Fun Physical Fitness for the Home by Sono Sato Harris and The Ultimate Homeschool PE Game Book by Guy Bailey.

Approximate hours of homework per week:

None

Prerequisites for this class:

Desire to have fun!

Class is appropriate for grades: K – 4th Grade

Materials to be supplied by the student:

None

One-time fee for this class: \$5

The one-time fee is for: Maintain and purchase equipment

PHYSICAL SCIENCE

Staci Brown

Class Description:

This should be the last course a student takes before high school biology. Typically, we recommend that the student take this course during the same year that he or she is taking prealgebra. Exploring Creation With Physical Science provides a detailed introduction to the physical environment and some of the basic laws that make it work. The fairly broad scope of the book provides the student with a good understanding of the earth's atmosphere, hydrosphere, and lithosphere. It also covers details on weather, motion, Newton's Laws, gravity, the solar system, atomic structure, radiation, nuclear reactions, stars, and galaxies.

Approximate hours of homework per week:

2 – 4 hours per week

Prerequisites for this class:

Has, or is taking Pre-Algebra

Class is appropriate for grades: 7th – 11th Grade

Materials to be supplied by the student:

2nd Edition Apologia's Exploring Creation with Physical Science; 3-ring binder; colored pencils

One-time fee for this class: \$25

The one-time fee is for: All supplies needed for labs.

PHYSICS

Staci Brown

Class Description:

Exploring Creation with Physics provides a detailed introduction to the methods and concepts of general physics. Heavily emphasizing vector analysis, this text is ideal preparation for a university-level physics course. It provides the student with a strong background in one-dimensional and two-dimensional motion, Newton's laws and their application, gravity, work and energy, momentum, periodic motion, waves, optics, electrostatics, electrodynamics, electrical circuits, and magnetism. Exploring Creation with Physics contain 34 labs covering topics such as velocity, acceleration, air resistance, vectors, horizontal speed, inertia, frictional force, centripetal force, energy, momentum, Hooke's Law, frequency and volume of sound waves, real and virtual images, simple circuits, Oersted's experiment and much more. Note: 2nd EDITION TEXT IS REQUIRED

Approximate hours of homework per week:

3-4 Hours

Prerequisites for this class:

Student should have completed Algebra including an introduction to the definitions of sine, cosine, and tangent.

Class is appropriate for grades: 11th-12th Grade

Materials to be supplied by the student:

2nd Edition Text of Apologia's Exploring Creation with Physics; lab notebook with graph paper; 3-ring binder

One-time fee for this class: \$25

The one-time fee is for: Lab Equipment

PILATES

Monique Green

Class Description:

Pilates is a method of exercise that uses stretching and strengthening exercises to strengthen and tone muscles, improve posture, improve flexibility and balance, and create a more streamline shape without bulking up. The main focus is our core muscle groups: abdominals and back, which are key to support the spine and organs. Pilates can be done by people with various fitness levels. Each exercise can be modified to an individual's fitness level. So if you are concerned about starting, don't be. It is fun and rewarding. You will experience results in a matter of weeks.

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: Females - 8th Grade thru Adult

Materials to be supplied by the student:

Floor Mat and unrestrictive clothing

One-time fee for this class: None

The one-time fee is for: N/A

PRE-K & KINDERGARTEN ENRICHMENT

Ria Schaeffer

Class Description:

In this class we try to enrich the learning of the basics-ABC's, phonics, sight words, 123's, numbers to 100, addition and subtraction. This is done through thematic workbook pages, unit studies, crafts, and more. The children usually leave with many papers and artwork or craftwork. This class is structured with the hope that we will begin to instill a sense of order and purpose without losing the spirit of fun.

Approximate hours of homework per week:

None

Prerequisites for this class:

Must be potty trained

Class is appropriate for grades: PreK – 1st Grade

Materials to be supplied by the student:

None

One-time fee for this class: None

The one-time fee is for: N/A

PREP FOR THE SAT

Staci Brown

Class Description:

Preparation for SAT, ACT, PSAT, and life. Do you know that the number one thing a job interviewer is looking for is your mastery of vocabulary? We will cover vocabulary, in-class essays, elementary to advanced math skills, and more! With games, quizzes, essay work, and critical thinking activities we will review and learn the skills you need. (Remember that the PSAT is taken at the *beginning* of the Junior Year, so Sophomore's prepare now.)

Approximate hours of homework per week:

One or more

Prerequisites for this class:

None

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Pencils, paper

One-time fee for this class:

The one-time fee is for:

PRESIDENT'S PHYSICAL FITNESS CHALLENGE

Jennifer Carr/Staci Brown

Class Description:

In this class, students will be challenged to be active and improve their physical fitness. Not just for one hour a week, but for everyday of the week and for the rest of their lives. Our goal is to have fun, while trying to help the students learn life-long habits. We will not only challenge their bodies, but also their minds. To have a healthy body is something we all want and also what God wants for us.

Approximate hours of homework per week:

30 minutes per day, 5 days a week

Prerequisites for this class:

None

Class is appropriate for grades: 1st – 12th

Materials to be supplied by the student:

None

One-time fee for this class: \$10

The one-time fee is for: Patch, certificate and equipment

REAL STRONG: BECOMING A GODLY MAN

Benny Nowell

Class Description:

What does it take to become the man God wants you to be? REAL STRENGTH. The kind of strength that only God can bestow. This fun, action packed, class will use discussion, film clips, literature, and activities to focus on topics such as:

1. Connecting with God in a powerful way
2. Pursuing Godly friendships
3. Serving God in a mighty way
4. Sharing Christ with others
5. Being a Christian male in a non-Christian world
6. Impacting the world around you

Approximate hours of homework per week:

1 Hour

Prerequisites for this class:

None

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Paper, pen and Bible

One-time fee for this class: None

The one-time fee is for:

ROBOTICS

David Panak

Class Description:

Robotics will use Vex Robotics System. The students will learn how to assemble robots and program the robots using Easy C and control them using radio controls. Teamwork, ethics, problem solving and record keeping will be taught as we tackle various objectives using the robots. Consistent attendance from month-to-month is important as we will build on previously taught concepts.

Approximate hours of homework per week:

One

Prerequisites for this class:

Algebra

Class is appropriate for grades: 7th -12th Grade

Materials to be supplied by the student: None

One-time fee for this class: None

The one-time fee is for:

SCHOOLYARD FUN!

Jennifer Carr

Class Description:

In this class, we will be focusing our attention on schoolyard games children enjoy playing. Remember the fun of hopscotch, jacks, marbles, four-square, jump rope, chinese jumprope and hand clapping games. Children will learn rules of old favorites as well as some new ones.

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: 2nd – 6th Grade

Materials to be supplied by the student:

None

One-time fee for this class: \$10

The one-time fee is for: Equipment

SCIENCE IN ACTION

Yvonne Piper

Class Description:

Students in this year-long science class will learn research skills in preparation for a science experiment. This experiment will culminate in a visual display at the school's Share Fair at the end of the year. The first semester be spent doing research for an MLA documented research paper on a scientific topic chosen by the student. This topic will lead the student to conduct an experiment. The second semester will be spent experimenting and working on the visual display. An oral presentation will be given in class at the end of the year with an audience of family and friends.

Approximate hours of homework per week:

0 to 1 hour

Prerequisites for this class:

The student needs a good working knowledge of writing and grammar.

Class is appropriate for grades: 5th – 8th

Materials to be supplied by the student:

Display board, construction paper, glue, scissors, writing implements, paper

One-time fee for this class: None

The one-time fee is for:

SCOUTS FOR BOYS

Various Leaders

Class Description:

Cub Scouts is divided into 5 different groups and is a family- and home-centered program.

Tiger Cubs is for first-grade (or 6-year-old) boys. These boys participate in the program with their adult partners. The program emphasizes shared leadership, learning about the community, and family understanding.

Wolf and Bear Scouts is a program for boys in the second through fifth grade (or who are 7,8 or 9 years old). Activities emphasize character development, citizenship training, and personal fitness.

Webelos Scouts is a program that develops skills for fourth- and fifth-grade (or 9 or 10-year-old) boys. Webelos Scouts participate in more advanced activities that begin to prepare them to become Boy Scouts.

As a parent, you can be assured that Cub Scouting

- involves a variety of family activities
- encourages good behavior
- teaches lifelong values
- strengthens the bonds of God and family

Approximate hours of homework per week:

Some badge work will need to be completed at home

Prerequisites for this class:

See Scout Leader

Class is appropriate for grades: 1st – 5th Grade

Materials to be supplied by the student:

Scout book (about \$5) and uniform (about \$20)

One-time fee for this class: \$72 per calendar year

The one-time fee is for: \$25 dues in September, \$25 dues in November and \$22 recharter fee in January

SCOUTS FOR GIRLS

Various Leaders

Class Description:

In Girl Scouts, girls discover the fun, friendship and power of girls together. Through a myriad of enriching experiences, such as extraordinary field trips, sports skill-building clinics, community service projects, cultural exchanges, and environmental stewardships, girls grow courageous and strong. Girl Scouting helps girls develop their full individual potential; relate to others with increasing understanding, skill, and respect; develop values to guide their actions and provide the foundation for sound decision-making; and contribute to the improvement of society through their abilities, leadership skills and cooperation with others.

Brownies – For girls ages 6 – 8 or grades 1 – 3. Girls are required to wear a sash or vest and will need the appropriate book.

Junior Girl Scouts – For girls ages 8 – 11 or grades 3 – 6. Girls are required to wear a sash or vest and will need the appropriate book.

Cadette Scouts - For girls ages 11- 15 or grades 5 – 9. Girls are required to wear a sash or vest and will need the appropriate book.

Approximate hours of homework per week:

Approximately one hour per week for Cadettes, and less or none for Juniors and Brownies

Prerequisites for this class:

None

Class is appropriate for grades: 1st – 9th Grade

Materials to be supplied by the student:

Vest or Sash and Books

One-time fee for this class: Annual Girl Scout Fee

The one-time fee is for:

SCRAPBOOKING

Carmen Barber/Debbie Epley

Class Description:

Come and enjoy 1 ½ hours+ each week to make progress on your scrapbooking project! Last year we built monthly themed pages, this year our time will be spent on techniques and crop talks, then lots of time to work! We will explore ideas to make your pages come alive, power layouts to maximize cropping time, punch art to add some fun touches, and lots of idea sharing time. Bring your current scrapbooks and supplies, or start something new! Happy Scrapping!

Approximate hours of homework per week:

minimal - gathering project items

Prerequisites for this class:

The ability to be self-motivated and work independently on scrapbooking projects - although we are glad to help in any way we can! If special assistance is required, contact us prior to signing up.

Class is appropriate for grades: mature 5th grade through adults. Students need to be able to cut pictures using scissors and paper trimmers, use punches, journal their pages, and use adhesives.

Materials to be supplied by the student:

Scrapbooks and supplies for project. We are happy to assist with getting any Creative Memories supplies for use in class at a discount for anyone needing them. Please contact us for assistance!

One-time fee for this class:

The one-time fee is for:

SHOW CHOIR

Maggie Carabelos

Class Description:

"Show Choir" is a fun, creative and exciting class in its sixth season. Students will learn basic music skills, harmonies, blending, and teamwork. Performances will include the Christmas Program, Talent Show, Graduation and a Pop's Concert. Extra rehearsals are required in December for the Christmas Concert and in May for Talent Show & Graduation. Schedules for these rehearsals are posted in November and April. Students must be committed and dedicated to the quality of this choir. Students are required to practice their music, lyrics and choreography independently. This is a High School course and students will be graded on their contribution to the group, participation in class, attendance to rehearsals and performances. Requirements are: Students must be in the ninth grade, have had at least one year of choral experience, and must audition with the director. This year we will be acquiring costumes, fundraising will be available. If you were in this choir last year auditions aren't necessary.

Approximate hours of homework per week:

Approximately 1-2 hours of homework per week

Prerequisites for this class:

At least in the 9th Grade with at least one year of choral experience, and must audition with the director. (If you were in this choir last year you do not need to audition.)

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Pencil

SPEECH (FORENSICS)

Maggie Carabelos

Class Description:

This class is for the beginner and advanced speaker and is required if competing on the SALT Speech & Debate Team.

Public speaking is a skill that will serve your student throughout their academic years and beyond. This class will focus on the various speech & forensics events open to homeschoolers through the National Christian Forensics & Communication Association: Apologetics, persuasive, original oratory, expository, humorous, dramatic, duo, oratorical and open interpretation, impromptu, and extemporaneous. Students will learn how to research, construct and deliver a variety of platform, interpretation and limited preparation speeches. Through application of this process students will discover which events they're best suited for while developing their self-confidence. Students enrolled in this class have the opportunity to letter in speech, be a part of the SALT (Speaking as Living Testimonies) Speech & Debate Club, and in-depth tournament preparation. Tournament participation is strongly encouraged and required for lettering.

Approximate hours of homework per week:

1-3 Hours - Competition requires 4-5 Hours

None

Prerequisites for this class:

None

Class is appropriate for grades: 5th – 8th Grade

Materials to be supplied by the student:

Bible

One-time fee for this class: \$25

The one-time fee is for: One quality craft to be made over the course of the year, along with handouts.

WISE AND WORTHY WOMEN

Monique Green

Class Description:

This class is based on Proverbs 31:10-31, which describes a woman with Godly character and skills. It states that she is valuable, trustworthy, hardworking, talented, confident, stylish, educated, healthy, diligent, and compassionate, loves her family, charitable, resourceful, strong, dignified, kind, blessed, and fears the Lord. We find that she has many traits that are of value today. God has created us each unique and different talents and gifts. Some things come naturally to us and some can be learned. In class we will learn about a variety of skills and briefly talk about how they are similar to the Proverbs 31 Woman. Here are some examples:

Vs 13, 19, 22 & 23 - Craft and sewing skills

Vs 14, 27 - Shopping skills

Vs 15 - Cooking Skills

Vs 16, 18 & 24 - Financial Skills

Vs 22 - Fashion Skills

Vs 17 - Fitness Skills

Vs 20 - Charitable Skills

Approximate hours of homework per week:

None

Prerequisites for this class:

None

Class is appropriate for grades: 6th and Up

Materials to be supplied by the student:

One-time fee for this class:

The one-time fee is for: One quality craft to be made over the course of the year, along with handouts.

WRITING FOR SUCCESS

Kordee Rose/Julie Davidson

Class Description:

Students will learn fundamental writing skills beginning with sentences and paragraphs. They will move to short stories, essays, current events, summaries, book reports, newspaper articles, letters to editors and government officials, term papers and poetry. The class will also include weekly journal writing.

Approximate hours of homework per week:

1

Prerequisites for this class:

Student needs to be able to read and write

Class is appropriate for grades: 3rd – 8th Grade

Materials to be supplied by the student:

Two notebooks (or one notebook with two sections) pencils or pens.

Intended for students in high school.

Class is appropriate for grades: 9th – 12th Grade

Materials to be supplied by the student:

Notebook, writing instrument

One-time fee for this class:

The one-time fee is for:

YEARBOOK

Amy Craddock/Leslie Skrbina/Maggie Carabelos

Class Description:

This class is by written application only. High school students are welcome to submit a paragraph explaining why they would like to be on yearbook staff and what talents or areas they would like to contribute. This is a team developed to take pictures of a wide variety of people attending FACE events, field trips, and classes; designing and illustrating pages; and learning about publishing along the way. Photography, scrapbooking, writing, current events and computer experience/knowledge are helpful skills to know, but if not, that's okay too. A willingness to work and help, an openness to ideas, and flexibility are important. The yearbook staff take part in one fundraiser one day each year around Valentine's Day as Love Bugs. The staff (Love Bugs) create, sell, and deliver singing valentine cards and chocolate kiss animals or flowers.

This class will meet periodically during the lunch hour, September through November. Will meet more frequently starting in January, and will have additional meetings outside of Fridays starting in April.

Approximate hours of homework per week:

0 to 1 hour

Prerequisites for this class:

Written application to Amy Craddock

Class is appropriate for grades: 9th to 12th Grade

Materials to be supplied by the student:

Laptop, if available

One-time fee for this class: N/A

The one-time fee is for: N/A
